Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Non-Final Rejection

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Evans (6,685,243) and in view of ordinary skill in the art.

Regarding claims 1-24, Evans (6,685,243) discloses in Fig 1-10 the invention as claimed to include an elongated, unitary structure energy absorber 22 having a crushable forward projecting portion/lobe; a vehicle; a support portion (Fig 2); a forwardly facing front wall, at least a pair of adjacent lobes having interconnecting front walls; a crush initiating conical portion; a fascia; and a reinforcing bumper beam.

However, Evans (6,685,243) does not disclose a molded mat of fiber reinforced resin material; the energy absorber adapted to absorb energy during an impact of the vehicle; absorber of thermoformed or compression molded material; a low density glass mat thermoplastic composite; fiber reinforcement in a matrix of thermoplastic material; mat comprises a chopped glass fiber and a thermoplastic binder material comprising a polyester resin and polycarbonate; polyester is polyalkylene terephthalate; and polycarbonate is an polycarbonate.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the energy absorber using a molded mat of fiber reinforced resin material; the energy absorber adapted to absorb energy during an impact of the vehicle; absorber of thermoformed or compression molded material; a low density glass mat thermoplastic composite; fiber reinforcement in a matrix of thermoplastic material; mat comprises a chopped glass fiber and a thermoplastic binder material comprising a polyester resin and polycarbonate; polyester is polyalkylene terephthalate; and polycarbonate is an polycarbonate, since it has been held to be within the general skill of a worker in the art to select a known

material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ416.

Conclusion

2. The prior art made of record in attached Notice of Reference Cited (PTO-892) and not relied upon is considered pertinent to applicant's disclosure. This art of record shows various features similar to the applicant's invention.

3. Any inquiry concerning this communication or earlier communications should be directed to Primary Examiner Kiran B. Patel whose telephone number is 703-305-0254. The examiner can normally be reached on M-F from 8:00 to 5:00. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
